

### GRAINTECH STEEL DOORS

#### PURPOSE:

When a premium wood finish is desired, and the features and benefits of steel are required, Steelcraft's GrainTech® products provide the flexibility your specification demands.

#### APPLICATION:

The exclusive engraving and staining process employed simulates a wide variety of wood finishes, from the standards of Birch, Ash, Oak, Maple, Mahogany and Walnut to custom finish matching or primed only. GrainTech® is ideal to use in Schools, Hospitals, Offices, Nursing Homes, Apartment Buildings, Dormitories, etc. Unlike veneered or solid wood doors, GrainTech® is fully warranted for use on exterior openings, is less susceptible to damage, and will never warp, crack, peel or bow. Designer® Trim Glass Lights used for glass light openings is likewise supplied in the finish matching the door.

#### PRODUCT AVAILABILITY:

This product option is available in the following door constructions:

- CE Series (18 and 16 gage)
- H16 and HE16 Series
- L Series (20, 18 and L16 gage)
- T Series (20, 18 and T16 gage)

See the Fire Rated Products Section for application to Fire Rated doors.
